Hiring Manager

JPMorgan Chase & Co.

Subject: Application for Software Engineering Program - Full-Time

Dear Hiring Manager,

I am excited to apply for the **2026 Software Engineer Program - Full-Time** at JPMorgan Chase & Co. With a strong foundation in **Java, Spring Boot, Python, and Data Structures & Algorithms**, I am eager to contribute my technical expertise and problem-solving skills to your innovative and dynamic team.

As a **final-year Computer Science and Engineering student** at **Kalinga Institute of Industrial Technology**, I have consistently excelled academically, maintaining a **CGPA of 9.06**. My passion for technology has driven me to take on leadership roles, such as serving as the **Technical Executive (App Development Lead) in the Microsoft Learn Student Ambassador program under KIIT Chapter**, where I developed and contributed to impactful projects. Additionally, as a **Web and App Developer for KIIT International Model United Nations (MUN)**, I built an Android app that centralized participant information, implemented a **QR-based attendance system**, and enhanced user engagement.

My experience in full-stack development includes working with **Flutter for frontend, Spring Boot for backend, and PostgreSQL for database management**. Notable projects such as a **real-time chat application with Spring Boot and Flutter**, a **fraud detection system using machine learning**, and an **autonomous handwriting recognition system** have honed my skills in building scalable, efficient, and user-centric solutions. Moreover, my strong grasp of **RESTful microservices, application security, and cloud platforms** aligns with JPMorgan Chase's emphasis on cutting-edge technology solutions.

JPMorgan Chase's commitment to financial technology, innovation, and collaborative learning resonates with my career aspirations. I am particularly excited about the opportunity to work alongside a diverse team of technologists, participate in **real-world problem-solving initiatives like 'Force for Good'**, and contribute to the firm's mission of delivering impactful technology solutions.

I welcome the opportunity to discuss how my technical expertise and problem-solving abilities can contribute to your team. Thank you for your time and consideration—I look forward to your response.

Sincerely,

Firoj Musalman
